

Finance for distressed businesses

Omni Bridgeway's finance is an essential tool in assisting companies facing liquidity stress

Many companies face cash flow pressure during their lifecycle. Dispute finance provides immediate and ongoing capital to help business owners and operators respond swiftly and confidently, without additional debt, cost or risk.

Finance solutions to monetise dispute assets

Litigation and arbitration claims, judgments and awards are valuable assets that can be leveraged to generate income during difficult times.

Purchasing legal assets

For immediate capital, we can purchase (or pay cash advances on) your debts, judgments, arbitration awards and claims – including insolvency claims which may be held by other parties. This can include single claims or portfolios of multiple disputes or non-performing loans. This is a quick way to return cash to your business so you can focus on operations and business continuity.

Capital advance

Leverage the value in your contingent litigation or arbitration assets to access immediate cash without corresponding balance sheet liability and use the funds to:

- sustain or restructure business operations
- relieve pressure from creditors
- engage a professional to review your company's financial position and solvency
- fund ongoing litigation, arbitration or recovery of judgments and awards

Single claims and portfolios

Our financing can cover legal costs associated with pursuing commercial claims including briefing law firms, barristers, expert witnesses, court or arbitration fees or other disbursements.

Recovery and enforcement

If your company holds favourable judgments or arbitral awards but has limited funds and human resources to pursue them, we provide the finance, strategic know-how and project management to recover unpaid judgments and arbitration awards against able, but unwilling or evasive debtors.

Asset tracing and protection

We devise, implement and fund strategies from the outset to locate assets and safeguard collectability.

“One of the benefits of teaming with Omni Bridgeway is they take on the down side, so you're obtaining a form of adverse cost insurance and they de-risk the situation.”

DAVID WALTER, PARTNER, ASIA PACIFIC RESTRUCTURING AND RECOVERY GROUP, ALLEN & OVERY

Security for costs and adverse costs cover

We can provide up-front 'security for costs' and protect you from any adverse costs exposure associated with pursuing your valuable claims - effectively de-risking your position.

'Seed' finance

If you lack resources to assess the viability of potential claims, up-front 'seed' finance allows promising claims to be investigated. It can cover costs associated with investigating recoverability against defendants, counsel's opinion, court applications, reports from accountants and other experts, and is accompanied by our extensive experience in case analysis and strategy.

Our finance is available prior to filing a claim, during the course of existing disputes, on appeal or during enforcement of judgment or awards. And our finance is non-recourse – we only recover our expenses and a return on our investment if your claim or recovery is successful.

“They helped the client remain solvent through proceedings. I was shocked that they were accommodating enough to do that.”
