

Dispute finance for the clients of professional advisers

Omni Bridgeway's finance helps professional advisers guide clients through disputes and recoveries without cost or risk exposure

Now more than ever, businesses are seeking creative capital and risk management strategies.

Professional advisers who offer innovative approaches are winning mandates and assisting clients around the world by working with Omni Bridgeway to deliver bespoke finance and risk-management solutions.

Help clients monetise litigation assets without taking on risk

Dispute finance is already known for providing access-to-justice and a 'level playing field'. It is now also popular with companies and individuals wishing to pursue legal claims and recover awards and judgments without diverting or risking their own funds.

Omni Bridgeway's non-recourse dispute finance helps clients outsource the cost and risk of their commercial disputes, preserve their capital for other projects, remove legal expenses from their P&L and leverage their legal claims, awards and judgments as assets.

Dispute finance enables clients to retain preferred advisers, adds resources to strengthen their position and is a particularly valuable tool for unlocking the economic value of disputes and judgments and awards during challenging economic times.

Dispute finance is popular for all commercial claims

- Commercial Litigation – cross-border disputes, breach of contract or duty, tax claims, professional liability, intellectual property (copyright, trademark and patent infringement)
- Arbitration (including Investment Treaty Arbitration)
- Group claims – environmental, shareholder, product liability
- Restructuring and insolvency related claims

“The best funders we've ever worked with.”
