

Finance and management for judgment enforcement

Omni Bridgeway's finance and strategic expertise can protect and recover what is due to you

Achieving a favourable judgment or arbitral award feels like success, until it isn't honoured.

Omni Bridgeway's enforcement experts can help prevent and address this situation by deploying proactive measures from the outset of your claim and devising and executing responsive strategies post-judgment or award to recover monies owed to you.

Omni Bridgeway is a formidable ally. With us by your side, you reclaim power from passive or resistant debtors and induce resolution.

Finance and management solutions to monetise your claims, judgments, awards and receivables

Preventative action

We devise, implement and fund strategies from the outset of your claim to safeguard collectability.

Recovery and enforcement

Instead of using your own funds and resources, Omni Bridgeway provides the finance, strategic know-how and project management to recover unpaid judgments and arbitration awards against able, but unwilling or evasive debtors. Our financing is 'non-recourse' – we are only paid from the actual recoveries of your claim.

Purchasing legal assets

If you seek immediate capital, we can purchase (or pay cash advances on) debts, judgments, arbitration awards and certain other claims (such as insolvency claims which may be held by other parties). This can include single claims or portfolios of multiple disputes, non-performing loans or subrogation rights held by insurers.

Distressed Asset Recovery Program (DARP)

Omni Bridgeway is the only dispute financier chosen by the World Bank's International Finance Corporation as joint venture partner on its DARP initiative. Together we have established a program for recovery of non-performing loans for lenders in the Middle East, North Africa, Central Asia, Eastern and Southern Europe regions.

“Omni Bridgeway's combination of investigative disciplines, legal enforcement knowledge and its global network of experienced specialists forms the basis of its market-leading practice.”
