Dispute resolution and judgment enforcement funding

Increase competitive leverage

The benefits of working with Omni Bridgeway begin with covering the skyrocketing costs of engaging in disputes. We provide funding to enable individuals, companies, groups and insolvency dispute stakeholders to pursue cases to the most desirable outcome.

Our capital often balances the playing field when used to hire the best legal counsel and experts. For companies, it can also serve to alleviate the strains of pursuing litigation. It is available to finance operations and other business

expenses during often lengthy legal proceedings, create liquidity events, move litigation expenses off the income statement and improve the bottom line. Additional uses include monetizing a judgment or award while it is being appealed or enforcing one that remains unpaid.

Beyond capital, we equip parties with strategic guidance in disputes, skillful negotiation in enforcement activities and access to a broad network of relationships across the legal, finance, insurance and related industries.

Collaborate with a highly experienced team

Omni Bridgeway has 30+ years' experience in the business and has funded hundreds of cases to completion.

We offer risk sharing via the provision of non-recourse capital, which means we invest with the expectation to be repaid only if the cases we finance are successful. For this reason, we review prospective investments carefully and seek to forge relationships in which there is an alignment of interests in achieving the most optimal outcome for the case.

We work with individual claimants, law firms, lawyers, corporations, sovereigns, banks, insolvency dispute stakeholders and multilateral institutions.
