OMNI BRIDGEWAY

Investment Portfolio (unaudited) At 30 September 2020

Highlights

Income

 During the quarter gross consolidated income from litigation investments of \$21.1 million was recognised from partially and fully completed investments. The seven investments that fully completed had an aggregate EPV of \$130.0 million.

ASX Announcement

FRIDAY 30 OCTOBER 2020

- Most of our portfolio now relates to investments made in the US and EMEA.
 In the first quarter of this financial year, during the Northern Hemisphere summer, there is a general slow-down in business activity which correlates with a fewer number of completions. We anticipate this seasonal impact will be apparent in the future. This year has been exacerbated by the impact of COVID-19 and USA elections.
- There remains further gross income from investments of approximately \$177.1 million that is pending possible recognition in future periods. This potential income is from three investments which had substantially completed prior to 30 June but have not satisfied the revenue recognition accounting standards and our policies.

Investments

- We have experienced a 27% increase in the number of funding applications compared to the equivalent quarter of FY20 (excluding OBE).
- During the quarter the group made 14 unconditional commitments to investments of \$41.2 million with an EPV of \$901.4 million.
- The total EPV at 30 September 2020 has increased to \$16.9 billion. This reflects a net increase of 7% from last quarter.
- There are 29 conditionally funded and IC approved investments with an aggregate investment commitment of \$107.8 million and an EPV of \$3.3 billion. This reflects a net increase of 18% and 43% respectively from last quarter.
- At 30 September 2020 the carrying value of litigation investments total \$642.3 million. This reflects a net increase of 2% from last quarter.
- As previously reported to the ASX, during this quarter the Westgem judgement was handed down in favour of the defendant, and a subsequent appeal against this judgement was lodged on 25 Sept 2020 in the Supreme Court of WA. Therefore, this matter continues to be held as an on-going investment in this report, at an EPV of \$250.0 million and now has an anticipated completion in FY2023.

The events relating to this matter that have occurred during the quarter necessitate an assessment for possible impairment and this assessment will be undertaken in due course as part of the regular reviews.

Overview

I prtfolio:

The total EPV of funded, conditionally funded and IC approved investments is \$16.9 billion. This reflects a net increase of 7% from last quarter.

*The income recognised is based on actual completions during the period and supersedes any previous announcements. balance sheet income yet to be recognised includes the estimated \$150.0 million in relation to the Wivenhoe investment, which is subject to appeal. F er to various ASX announcements, in particular those of 2 March and 29 May 2020.

Subject to change.

Portfolio and funds review

I ALANCE SHEET

The latest hearing of the Wivenhoe (Brisbane floods action) before the New South Wales Supreme Court (Court) took place this week. It was determined that, consistent with the liability finding at first instance decision, each of the three defendants (State of Queensland, Seqwater and Sunwater) are liable to pay the group members' costs (subject to any prior costs orders).

The other primary aspect of this week's hearing concerned damages assessment, both for four sample group members and ore broadly for the balance of the group members. The parties agreed on the quantum of damages for one sample group rember. The continued hearing of the claims of the other sample group members has been deferred to 11 December 2020. The Court has ordered that 264 group member claims be referred to a referee for assessment of damages. The plaintiff sought the reference as a foundation for a proposed future application for agregate damages for the class.

The Court has also ordered that the further mediation occur by 23 December 2020 (changed from 30 November) and irrently the mediation is scheduled to occur on 8 December 2020. The appeal on the first instance decision will be heard May 2021 unless there is a settlement of the proceedings in the interim.

uring the period the Court found against our clients in the Westgem matter. Our clients have lodged an appeal that we are f hding. At the time of this report the investment continues to be included as a Funded matter with an EPV of \$250.0 million. ne possible completion period has been moved to FY2023. The investment has a carrying value of \$55.6 million (including overheads); any impairment or write off in the future will be non-cash in nature. The current estimate of the cash impact f pm adverse cost is between \$7.5 million and \$10.0 million.

FUNDS 2 & 3 – Rest of World (RoW)

ommitment status:

pacity in Fund 2&3 has become available as a consequence of one conditionally funded investment not proceeding and a dget reduction in another funded class action. The conditionally funded investment related to a closed class action that was conditional on adequate bookbuild, which was not achieved. The budget reduction has arisen from a cooperative arrangement being achieved between Omni and another funder.

a consequence of capacity in Fund 2&3 becoming available, new RoW investments that would normally be directed to Ind 5 will now be directed to Fund 2&3 until that capacity is filled.

Investment status:

| Investment status: | | | | | | |
|--------------------------|--------|---------|---------|-----------------|------------------|----------|
| | | EPV AUD |] | Possible Comple | tion EPV million | |
| Year of Investment | # | million | FY2021 | FY2022 | FY2023 | FY2024 + |
| γ 2018 | 5 | 616.0 | 486.1 | 100.0 | 29.9 | - |
| FY 2019 | 15 | 1,715.6 | 183.6 | 925.9 | 606.1 | - |
| (() / 2020 and later | 10 | 765.1 | 5.0 | 578.6 | 150.0 | 31.5 |
| Total | 30 | 3,096.7 | 674.7 | 1,604.5 | 786.0 | 31.5 |
| hange from prior quarter | (3.2%) | 5.3% | (27.9%) | 36.0% | (0.6%) | (6.0%) |

The 27.9% decrease in possible completions in FY2021 is mainly due the shift of one investment's completion date (due to a ombination of unanticipated procedural motions being scheduled by the defendants and Covid delays) and the completion of two investments during the quarter.

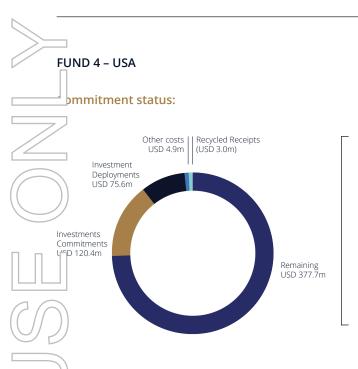

The 36.0% increase in possible completions in FY2022 is due to the shift of the investment referred to above plus the funding a new investment with an estimated completion date of FY2022.

Notes

is announcement is for the use of Omni's public areholders and is not an offering of any private fund. The financial data included in this announcement has ot been audited.

PORTING FORMAT

Sroup – EPV

nni continues to report all investments using only EPV in
 t) a quarterly investment reports. This period, for the second
 me, we have included an EPV for the OBE Group.

The EPV for investments which are the subject of conditional settlements or appealable judgments or which are impaired, have not been removed from the portfolio. They will remain which the portfolio until they become unconditional completions. The EPV of any impaired investment reflects the impairment.

QBE Group – EPV (and capital invested)

hilst that EPV is our current estimate, the adoption of an EV for the OBE Group is new and is still subject to ongoing tegration, it is likely that it will be refined over time.

Consistent with prior periods, we have also reported the oital invested.

e counting Consolidation of Investments and

Funds 1, 2 & 3, and the investments of Funds 4 and 6 are consolidated within the group's financial statements, with t respective external investors' interests reflected as n-Controlling interests. Fund 5 and Fund 7 are not nsolidated within the group's financial statements.

gardless of consolidation, the entirety of all investments and Funds including external investors' proportionate share therein are included in this quarterly investment portfolio report. here investments are co-funded with an entity which is not filiated with the Omni Bridgeway Group, the co-funded proportion of the applicable investment is excluded from this quarterly investment portfolio report.

...vestments Included in Portfolio

The investment portfolio includes investments with an conditional commitment to fund and may include investments were a previously conditional funding agreement has become conditional. It may include investments that have settled or have appealable judgments until they have finally completed and be associated income can be recognised. Investments in class a ions included in the portfolio as unconditional may still be object to a court process, where there are competing class ctions claims, to determine which case proceeds.

st Performance

Past performance is not necessarily an indication of future performance.

P-st performance indicates that group's litigation funding investments (excluding OBE Group investments) have generated a prage gross income of approximately 15% of the EPV of an investment a the time it is completed (**Long Term Conversion Rate**).

 $rac{I}{2}$ e group's completed investment data has been reviewed by our auditor, EY, to 31 December 2019. It has been updated to 30 June 2020 by management and has not yet been reviewed by EY; it will be as part of the full year audit. This data generates $rac{ROIC}{2}$ of 1.3 x.

Possible Completion Periods

The possible completion period is the current estimate of t^{b} period in which an investment may be finalised. It is not a projection or forecast. An investment may finalise earlier or later than the identified period for various reasons.

mpletion for these purposes means finalisation of the litigation by either settlement, judgment or arbitrator determination, for or ainst the funded claimant, notwithstanding that such finalisation by be conditional upon certain matters such as court approval the context of a class action. For enforcement case investments the EPV may be split across multiple completion periods. There are a variety of reasons for this which are all reflective of the nature of enforcement investments, for example there may be multiple underlying actions with a commensurate number of completions, or a single completion with a tranched settlement payment structure.

For all investments, it may not follow that the financial result will be accounted for, nor that cash will be collected, in the year of finalisation. Possible completion period estimates are reviewed and updated where necessary.

DEFINITIONS

ROIC (return on invested capital) is calculated on completed cases across their entire life (not on an annualised basis). It excludes consideration of capitalised overheads, and withdrawals. It is calculated as gross income to the group less all total expenditure (including any adverse costs), divided by total investment expenditure (excluding any adverse costs).

Income v Revenue Terminology Income and revenue are used interchangeably throughout this announcement.

IRR (internal rate of return) excludes consideration of capitalised overheads, and withdrawals. It is calculated on aggregated underlying journal entries for each completed case (including losses and adverse costs but excluding withdrawals).

The Long-Term Conversion Rate, ROIC and IRR from completed investments may vary materially over time. By providing this historical information, OBL has not been and is not now in any way providing earnings guidance for future periods.

EPV (Estimated Portfolio Value) is the group's current estimate. For an investment where the funding entity earns:

- a percentage of the resolution proceeds as a funding commission, EPV is the current estimate of the investment's recoverable amount after considering the perceived capacity of the defendant to meet the claim and any other pertinent factors. Such amount is not necessarily the amount being claimed by the claimants, nor is it an estimate of the return to the group if the investment is successful,
- (ii) a funding commission calculated as a multiple of capital invested; EPV is arrived at by taking the estimated potential income return from the investment and grossing this up to an EPV using the Long-Term Conversion Rate, and
- (iii) a funding commission calculated on a combination of the above bases or on an alternative basis, arriving at the EPV may utilise one of the above methodologies, or a hybrid construct, or an alternative methodology depending upon the components of the funding commission.

OBE Group's EPV has been estimated on a conceptually consistent basis; enforcement case investments may have a multi-layered approach from a timing and value perspective. Where OBE Group have not yet been able to ascertain an EPV consistent with the disclosed methodology an EPV of zero has been used.

However calculated, an EPV is an estimate and is subject to change over time for a number of reasons, including, but not limited to, changes in circumstances and knowledge relating to an investment or the defendant(s) perceived capacity to meet the claim, partial recovery and, where applicable, fluctuations in exchange rates between the applicable local currency and the Australian dollar. Possible EPV's are reviewed and updated where necessary.

The portfolio's value is the aggregation of individual investments' EPVs as determined above.

Invested Capital is equal to the total capital invested to investments, translated to Australian dollars at the foreign exchange spot rate prevailing on the reporting date.

Committed Capital reflects signed funding arrangements. It is equal to the total capital either (i) committed to investments where there is a capped amount; or (ii) the estimated budgeted amount to run the case to completion of hearing where the investment is openended, translated to Australian dollars at the foreign exchange spot rate prevailing on the reporting date. It does not include possible overheads to be capitalised; appeal or enforcement costs, nor does it include possible adverse costs that may become payable if a case loss. Commitment levels are reviewed and updated where necessary.

Rest of the World/Non-USA includes all regions excluding the USA in which the group has commitments currently being Australia, Canada, Asia and EMEA.

Investment Commitments (i) Fund 1 & 4 are the amounts committed to conditionally & unconditionally funded investments and are generally fixed; (ii) Funds 2 & 3 and Fund 5 are the investment budget amounts of conditionally & unconditionally funded investments.

Other Costs Include unrecoverable due diligence costs and for Funds 2 & 3 and Fund 5 it additionally includes the cost of the After-the-Event insurance policy premium.

EMEA Europe, Middle East and Africa.

OBE Group means Omni Bridgeway Holdings BV and subsidiary; it includes Fund 6 & Fund 7.
