- a) This is the Company’s current best estimate of the claims recoverable amount (or remaining recoverable amount if there has been a partial recovery). It considers, where appropriate, the perceived capacity of the defendant to pay the amount claimed. It is not necessarily the same as the amount being claimed by the Company’s client/s in the matter. It is also not the estimated return to the Company from the matter if it is successful. No estimated claim value has been included for any contingently funded matters until all conditions are fulfilled.
- b) The possible completion period is the Company’s current best estimate of the period in which the case may be finalised. The case may finalise earlier or later than in this period. Completion means finalisation of the litigation by either settlement or judgement for or against the funded client. It may not follow that the financial result will be accounted for in the year of finalisation. Completion estimates are prepared and announced on a quarterly basis
- c) Cases which have settled subject to a condition or to Court approval remain in the portfolio at their original value until the condition is fulfilled or approval is given.

2. IMF will continue to update the Portfolio on a quarterly basis.
