- Holds leadership role in investor relations across the Group.
- Qualified accountant and lawyer with over 20 years' financial services experience in Australia and the UK, including private equity, funds management and venture capital.

Jeremy Sambrook
Group General Counsel and Company Secretary
PERTH
T: +61 8 9225 2324
E: jsambrook@omnibridgeway.com

- Responsible for leading the company's legal and compliance functions.
- Experienced corporate lawyer with a broad based in-house and private practice background including extensive managerial and executive interaction.
- Practised in Australia, the United Kingdom, Hong Kong and the Channel Islands.
Who we are

World’s largest litigation funder by headcount and geographic footprint

- Listed 2001 (IMF Bentham) – 19 years of solid growth and performance
- IMF Bentham and Omni Bridgeway merger 2019 – forming the Omni Bridgeway Group
- Omni Bridgeway invests via a mix of on-balance sheet and off-balance sheet structures

1 | Distressed Asset Recovery Program
2 | Funds under management
What we do

Tailored solutions from case inception to collection

Present

- Merits funding
  - Single claims
  - Working capital
  - Seed funding
- Portfolios
  - Corporates and law firms
  - Claims and defences
- Appeal funding
- Post judgment/award enforcement and collection
  - Strategy and project management
- NPL servicing and acquisition

Future

- Claims monetisation
  - Judgment / Award acquisition
- Downside risk management
  - Indemnity / ATE cover
- Distressed Debt Investing
  - Acquiring distressed debt positions as an active principal stakeholder
- Defence-side funding
- Omni Bridgeway law firm

Leading business model in growth industry
Litigation finance: a large and rapidly growing market

Estimated addressable market

- **Total market legal spend (US$)**
- **Estimated litigation portion of total legal spend (US$)**
- **Estimated total addressable market as % of total legal spend (US$)**

* Asia estimated market size based on claim value for international commercial arbitration and investment treaty arbitration

Figures converted to USD as at 1 December 2020. Figures may be rounded. Research not updated 2020 due to COVID-19.
Regulatory liberalisation and market acceptance driving industry momentum

Increased industry uptake

“87% of insolvency practitioners and financial institutions now consider third party finance a valuable solution after learning how it works”¹

“87% say Litigation finance enables better access to justice”²

“The rise of third party funding is nothing short of revolutionary”³

“Nearly 100% (99.36%) of respondents with first hand experience with litigation finance agreed that they would use litigation finance again”⁴

“Nine out of ten (93.0%) finance professionals expect their companies to use legal finance in the next two years”⁵

2015-2020 Business Plan executed, driving stock outperformance

- Investment into infrastructure over past five years to develop platform for future of business
- Diversification of risk was a critical strategic priority reflected in investment type, size, source and service provider and in capital mix

OBL share price vs. ASX 200 index (rebased to 100)

Source: Keefe, Bruyette & Woods, December 2020
2020-2025 Business Plan to drive growth across geography and across products

- **Jurisdictional coverage**
  - New markets include New Zealand, Latin America, Asia (South Korea, Japan and India) and Africa
  - Existing market expansion includes Canada and US

- **Investments**
  - Acquiring interests in claims, judgments or awards
  - Moving down the return chain to fund law firm receivables with recyclable capital and downside risk management

- **AUM + EPV**
  - Raise further AUM in externally managed LPs
  - Increase on balance sheet capital commitments to certain strategies

- **Funds scale + diversity**
  - Identify bolt-on acquisitions
  - M&A is likely to be opportunistic
Reviewing our international listing options, including potential LSE

Our opportunities:

• Review designed to test various options in relation to listing venue, including dual vs sole
• Litigation finance continues to grow dynamically as an asset class; Omni Bridgeway can deploy capital directly and via LPs
• Legal services funding is segmenting and broadening as law firm capital requirements change
• Opportunity to fund a broad range of activities in greater size on an international scale

Medium term access to growth capital / international expansion
Markets with equal Governance stature to Australia
Pool of incremental research analysts
Relevant industry comparables
Depth of liquidity pool
Origination network and investment portfolio
Market-leading origination, monitoring and enforcement network

Strength reflected in rapidly growing applications and commitments

Funding applications continue to grow year-on-year as our geographic expansion takes hold. Investments from year-to-year largely track funding commitments.

1 | Committed funding amounts from FY17 include conditionally funded investments and investments approved for funding by the Investment Committee but not yet funded. From FY18, upward budget revisions have been included.
Highly diversified portfolio of cases

- Diversification of investments by type and geography was a key objective of our initial business plan.
- In FY15 we had a high concentration in Australian class action investments and by FY20 we have a balanced portfolio of investments by geography and type.
- Diversification provides mitigation to risk of competition and regulatory intervention.
Business model, financial performance, future prospects
Simple business model

- **Management and transaction fees on AUM**
  - Managing ~US$1.5bn of capital across 7 Funds
  - Existing LPs are high quality international investors
  - Generating management and performance fees across all Funds

- **Return on Co-Investment**
  - Deploying our own capital via co-investment in each Fund
  - Co-investment gives direct exposure to Fund performance
  - Growth of external AUM likely to see further capital deployed in future

- **Return on Direct Investment**
  - Balance sheet investments approaching harvest
Committed capital at 30 September 2020

- Funds 1, 2 and 3 are now fully committed and in harvest mode. Given the fund structure, the investors have priority entitlement to distribution of capital and preferred returns, recourse only to the investments within the respective funds. There are a substantial number of investments and associated EPV within each of those funds from which those priority entitlements can be met.

- Funds 4 and 5 are partially committed, and have the option to recycle capital from completed investments. The investment periods complete four years from commencement, with a run-off harvest period that follows.

- Funds 6 and 7 are similar to Funds 4 and 5, and structured on an American waterfall basis except that with respect to Fund 7, funds are first allocated towards the investor debt before allocations are made via the waterfall. Fund 6 is near full commitment once the provision of US$50m for Fund 7 is provided for.

</tbody>
</table>

- Historically, around 15% of EPV has converted to revenue
- FY21, FY22 and FY23 are all expected to be strong years for EPV completion. Completions in FY24+ are likely to relate to future investments
- EPV performance is expected to be diversified across the Funds and directly from the balance sheet. Fund conversion is subject to distribution waterfalls
Material growth in all key metrics including income, liquid assets, net assets, investments and portfolio.

- 47% increase in investments and 69% increase in EPV (excluding conditional investments) reflecting an increase in average investment size, improving operational efficacy.
- 44% CAGR in investments and 46% CAGR in EPV from FY16, providing platform for future income generation.

Returns from investments housed in Funds follow each respective Fund’s waterfall of distributions, including allocation of profits to the Omni Bridgeway Group once capital and priority returns are paid.

1) Investments in Fund 6 includes $99.6m of fair value adjustments arising from the 2019 acquisition.
Historic Earnings

- Earnings might fluctuate year-on-year but this franchise builds fundamental balance sheet value.
- With case duration of c.3 years, FY20 is the first year to materially experience the realisation of the diversification and portfolio growth strategy implemented with the Funds model.
- Increased investments as shown on prior slide could translate, pending investment performance, to future earnings.
The targeted growth in FUM and Investment Commitments over the 5 year period of the business plan are aspirational statements of how Omni Bridgeway aims to achieve the overall business targets it has set itself. They are not a forecast.

By end of this 5 year business plan period Omni Bridgeway aspires to have close to AUD5bn FUM and to be committing c.AUD1bn. to investments annually.
Conclusion
A listing in London is being reviewed and would give the group access to the capital required to fuel growth.

Litigation finance industry continues to grow rapidly, generating high returns for investors and with high barriers to entry.

The global leader in financing and managing legal risk.

Best practice origination, underwriting and enforcement model.

Multi-faceted model that generates value for shareholders as fund manager and as principal.
## Risk Mitigation

<table>
<thead>
<tr>
<th>Risk</th>
<th>Potential impact</th>
<th>Strategic response</th>
</tr>
</thead>
</table>
| **PORTFOLIO CONCENTRATION**   | Potential for a funded case to be lost = Omni Bridgeway investment lost and exposure to adverse costs. Two material investment risks on balance sheet: Wivenhoe Dam & Westgem. | • Deliberate transition from idiosyncratic risk to systemic risk of a portfolio.  
• Portfolio represents increased number of investments, broader range of case types, sizes and jurisdictions.  
• Co-funding and ACO insurance cover in place. |
| **COMPETITION**               | Price compression  
Loss of market share  
Talent loss. | • Market differentiation (track record, capital adequacy, ACO cover, security for costs, transparency through public listing, reputation for integrity and fairness, strategic insights & project management on cases).  
• Innovation - products & services  
• Know-how - business processes  
• Talent retention strategies  
• Taking steps to reduce cost and increase availability of capital. |
| **REGULATORY CHANGE**         | Need to adjust business model  
New reporting/licensing regime  
New market entrants. | • Awareness, involvement and industry leadership. |
| **KEY-PERSON DEPENDENCY**     | Loss of know-how. | • Legal avenues: non-compete, confidentiality and IP protection agreements  
• Talent retention & knowledge transfer strategies: coaching, mentoring, professional development to build, transfer and safe-guard corporate knowledge  
• Incentive plans which reward loyalty and engagement  
• Purchase agreement structured to retain key executives. |
| **IT & DATA SECURITY**        | Loss of data due to software or hardware failure  
Theft or corruption of data or trade secrets due to social engineering or external penetration (hacking). | • Continuous adaptation to be nimble  
• Audits by external security and IT providers  
• Staff education  
• Constant vigilance. |
| **BRAND REPUTATION**          | If reputation is sullied, stakeholder trust and loyalty is eroded and brand equity and financial value can be compromised. | • Conscious culture of risk management  
• Numerous policies and practices to safe-guard reputation including escalation procedures throughout our organisation and regular and clear communication with all stakeholders. |
| **POOR INVESTMENT DECISIONS** | Financial impact of loss of investment, and in relevant jurisdiction adverse cost exposure, with flow on reputation risk. | • Investment in experienced investment managers with litigation experience  
• Enhanced Investment Committee process with introduction of external resources from the judiciary and legal profession. |

The above is not intended to be an exhaustive list of all the risks faced by the business.
Glossary of Terms and Notes

**ESTIMATED PORTFOLIO VALUE (EPV)**  
EPV for an investment where the funding entity earns:  
(i) a percentage of the resolution proceeds as a funding commission, is the current estimate of the investment's recoverable amount after considering the perceived capacity of the defendant to meet the claim and any other pertinent factors. Such amount is not necessarily the amount being claimed by the claimants, nor is it an estimate of the return to the group if the investment is successful, 
(ii) a funding commission calculated as a multiple of capital invested, is arrived at by taking the estimated potential income return from the investment and grossing this up to an EPV using the Long-Term Conversion Rate, and 
(iii) a funding commission calculated on a combination of the above bases or on an alternative basis, may utilise one of the above methodologies, or a hybrid construct, or an alternative methodology depending upon the components of the funding commission. 
OBE Group's EPV has been estimated on a conceptually consistent basis; enforcement case investments may have a multi-layered approach from a timing and value perspective. Where OBE Group have not yet been able to ascertain an EPV consistent with the disclosed methodology an EPV of zero has been used. However calculated, an EPV is an estimate and is subject to change over time for a number of reasons, including, but not limited to, changes in circumstances and knowledge relating to an investment or the defendant(s) perceived capacity to meet the claim, partial recovery and, where applicable, fluctuations in exchange rates between the applicable local currency and the Australian dollar. Possible EPVs are reviewed and updated where necessary. The portfolio's value is the aggregation of individual investments' EPVs as determined above.

**FUM**  
Funds Under Management

**IFRS**  
International Financial Reporting Standards

**IRR**  
Internal Rate of Return

**NCI**  
Non-Controlling Interest

**OBE GROUP**  
Omni Bridgeway Holding B.V. (ie 'Omni Bridgeway Europe'), Omni Bridgeway AG (formerly ROLAND ProzessFinanz), and a joint venture with IFC (part of the World Bank Group).

**PAST PERFORMANCE**  
Past performance is not necessarily an indication of future performance. Past performance indicates that Omni Bridgeway's litigation funding investments (excluding Omni Bridgeway Europe's investments) have generated average gross income of approximately 15% of the EPV of an investment at the time it is completed (Long-Term Conversion Rate). The Long-Term Conversion Rate, ROIC and IRR from completed investments may vary materially over time. By providing this information, Omni Bridgeway has not been and is not now, in any way, providing earnings guidance for future periods.

**POSSIBLE COMPLETION PERIODS**  
The possible completion period is Omni Bridgeway's current estimate of the period in which an investment may be finalised. It is not a projection or forecast. An investment may finalise earlier or later than the identified period for various reasons. Completion for these purposes means finalisation of the litigation by either settlement, judgment or arbitrator determination, for or against the funded claimant, notwithstanding that such finalisation may be conditional upon certain matters such as court approval in the context of a class action. It may not follow that the financial result will be accounted for in the year of finalisation. Possible completion period estimates are reviewed and updated where necessary.

**ROIC**  
Return on Invested Capital - gain or loss on derecognition of investments (including or excluding overheads) divided by the total spent on investments (including or excluding overheads).
