## Economic Climate Impact

Fears of a COVID-19 pandemic have negatively impacted global share markets with further falls experienced and expected.

<td>SHARE PRICE</td>
<td>Omni Bridgeway has obtained expert analysis that shows Omni Bridgeway’s share price is not correlated to our comparator group, the ASX300 Diversified Financials Index. While there may be short term impacts, history has shown that Omni Bridgeway’s share price has not suffered in the longer term.</td>

<td>Omni Bridgeway’s income is not dependent upon China and any supply-chain disruption is irrelevant to Omni Bridgeway’s business.</td>

<td>COMMODITIES, BONDS AND OTHER MARKETS</td>
<td>Commodity market fluctuations are not relevant to the business. Omni Bridgeway’s listed bonds do not impact the results, as they are not fair valued for accounting purposes.</td>
</tr>
<tr>
<td>INVESTMENTS</td>
<td>Due to sometimes lengthy lead times for completion of investments, those that are expected to complete commenced long before the COVID-19 outbreak began. Some investments currently in progress may be delayed if the courts were to close temporarily.</td>

During the SARS outbreak in 2003, Omni Bridgeway’s share price rose 164%.

During the Swine Flu (H1N1) outbreak in 2009, Omni Bridgeway’s share price rose 26%.

- $189.4m of gross income is pending possible recognition during the remainder of FY2020 from four investments that have completed prior to 31 December 2019 (including Wivenhoe1).
- A further $78.7m of gross income is pending possible recognition for investments that have completed subsequent to 31 December 2019.
- It is expected that additional investment completions will also occur in the second half of FY2020.

1. For further information see our announcements dated 2 December 2019 Brisbane Floods Class Action Judgment and 2 March 2020 Brisbane Floods Class Action – Update. Please note the estimated income is subject to the outcome of any appeals and the timing of the recognition of the income remains uncertain.

- High correlation between Deployed and Committed
- Omni Bridgeway generates management fee income in Funds 4 and 5 from deployed capital.
- Ideal situation will be to deploy sufficient capital to generate recurring management fees sufficient to meet or substantially meet overheads.

- IFRS reporting requires the deferral of income until recovery is certain, and in some instances the acceleration of the recognition of some expenses and the capitalisation of others.
- Net cash generation identifies cash inflows from completions and deducts cash expenses during the period.

Net cash generation is categorised as non-IFRS information prepared in accordance with ASIC Regulatory Guidance 230 – Disclosing non-IFRS financial information, issued in December 2011. This information has not been audited or reviewed.
Funding Funnel

Funding applications continue to grow year on year as our geographic expansion takes hold.

---

1. Committed funding amounts from FY2017 include conditionally funded investments and investments approved for funding by the Investment Committee but not yet funded. From FY2018, upward budget revisions have been included.
Investment Portfolio Profile

- Past performance indicates that litigation funding investments have generated average gross revenue of approximately 15% of the EPV of the investment at the time it is completed.
- For first generation funds, which include Funds 1, 2 & 3, waterfalls dictate capital and preferred return paid to investors before payment of capital and management fees to Omni Bridgeway, after which proceeds are split.
- For second generation funds, Funds 4 and 5, Omni Bridgeway will receive its investor return on its committed capital pari passu with external investors, as well as generate performance and management fee income.
- Funds 6 and 7 were acquired through Omni Bridgeway. EPV has not been calculated for investments in these funds, as this information is not available.

<th>Definition</th>

<tbody>
<tr>
<td><strong>ESTIMATED PORTFOLIO VALUE (EPV)</strong></td>
<td>EPV for an investment where the OBL funding entity earns a percentage of the resolution proceeds as a funding commission, is OBL's current estimate of the claim's recoverable amount after considering the perceived capacity of the defendant to meet the claim. It is not necessarily the amount being claimed by the claimants, nor is it an estimate of the return to OBL if the investment is successful. EPV for an investment where the OBL funding entity earns a funding commission calculated as a multiple of capital invested shall be calculated by taking OBL's estimate of the potential income return from the investment and grossing this up to an EPV using OBL's Long-Term Conversion Rate. An EPV is subject to change over time for a number of reasons, including, but not limited to, changes in circumstances and knowledge relating to an investment, partial recovery and, where applicable, fluctuations in exchange rates between the applicable local currency and the Australian dollar.</td>

<td><strong>PAST PERFORMANCE</strong></td>
<td>Past performance is not necessarily an indication of future performance. Past performance indicates that OBL's litigation funding investments (excluding Omni Bridgeway investments) have generated average gross income of approximately 15% of the EPV of an investment at the time it is completed (Long-Term Conversion Rate). The Long-Term Conversion Rate, MOIC, ROIC and IRR from completed investments may vary materially over time. By providing this information, OBL has not been and is not now, in any way, providing earnings guidance for future periods.</td>
</tr>
<tr>
<td><strong>POSSIBLE COMPLETION PERIODS</strong></td>
<td>The possible completion period is OBL's current estimate of the period in which an investment may be finalised. It is not a projection or forecast. An investment may finalise earlier or later than the identified period for various reasons. Completion for these purposes means finalisation of the litigation by either settlement, judgement or arbitrator determination, for or against the funded claimant, notwithstanding that such finalisation may be conditional upon certain matters such as court approval in the context of a class action. It may not follow that the financial result will be accounted for in the year of finalisation. Possible completion period estimates are reviewed and updated where necessary.</td>
