Highlights for the half year ended 31 December 2023

Operational highlights¹

- US\$485 million² first close of Fund 4 and Fund 5 series II capital raise on improved cost coverage terms.
- €135 million first tranche of debt capital raised for our €300 million Fund 8, focused on global enforcement investments.
- Significant expansion of our capabilities in the UK, the world's second largest litigation finance market.
- Investment income of \$235.7 million, including income yet to be recognised, with \$50.1 million provisionally attributable to OBL.
- 12 full completions, 6 partial completions, and a secondary market transaction achieving an overall MOIC of 2.4x, and an IRR of 55%.
- US\$21.5 million cash proceeds from the sale of a 25% interest in a portfolio of 15 intellectual property (IP) investments in Fund 4.
- \$260 million of new investment commitments with 38% improved pricing on FY23.
- \$182 million strong pipeline of new investment opportunities representing a further 29% of our commitments target for the year ending 30 June 2024.
- Possible investment completions with an estimated portfolio value (**EPV**) of \$5.1 billion over the next 12 months (rolling period).
- Total cash and receivables of \$291.2 million; OBL only cash and receivables of \$122.4 million (\$80.9 million in OBL balance sheet cash and \$40.1 million of OBL share of cash and receivables within Funds), plus \$60 million in undrawn debt.

Financial highlights³

- Total income of \$135.8 million (including a net gain on deconsolidation of the Fund 4 IP portfolio) derived from diversified sources comprising litigation completions, a secondary market sale, management fees, and interest revenue.
- Group profit after tax (before non-controlling interests (**NCI**)) of \$33.4 million (1H23: \$30.1 million loss after tax); with \$47.6 million loss attributable to OBL (the Group's equity holders) and \$81.0 million profit attributable to NCI.
- Employee expenses of \$34.4 million decreased 12% due to team optimisation, a reduction in contractors and higher capitalised costs of investment managers.
- Corporate overheads of \$9.0 million increased 4% due mainly to the amortisation of the Fund 8 insurance premium, notwithstanding significant reductions in other corporate overhead expenses.
- Carrying value of litigation investments of \$654.7 million (30 June 2023: \$596.7 million) across 285 funded litigation investments. Negative case developments including lower than anticipated income, extended duration and adverse milestones associated with a funded law firm portfolio have resulted in a \$44.9 million reduction of the carrying value.

¹ Represents non-IFRS information. Here Fund 5 is presented at 100% for consistency of presentation across OBL's Funds.

² Inclusive of OBL's co-funding (OBL's commitment of US\$100 million to each Series II fund is capped at 20% of the ultimate fund size (i.e. after further closings).

³ Per the Group Consolidated Financial Statements.

Commitments⁴

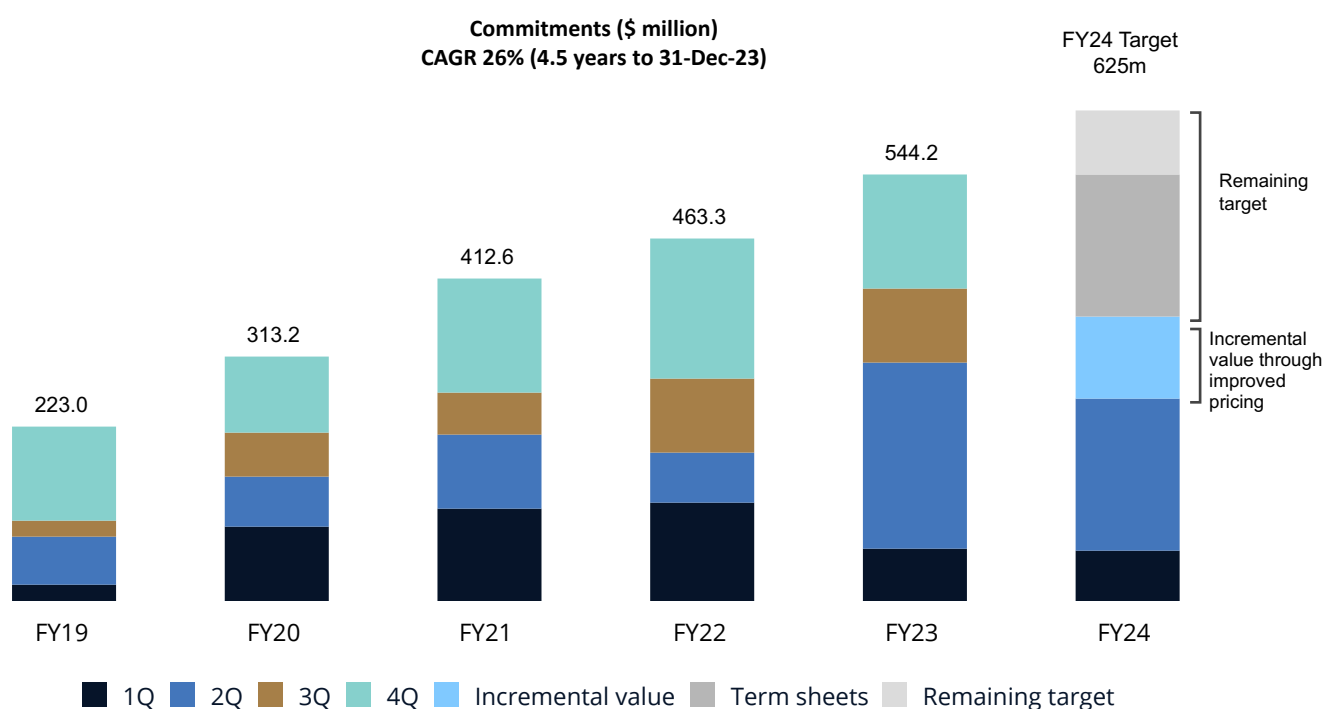

The Group's geographic and asset diversification assists in mitigating the risk of any increased competition or regulatory intervention arising in any one region. New commitments are the investment into future income streams and enable the Group to achieve economies of scale to diversify risk and provide superior risk adjusted returns in this asset class.

The stated target for the year ending 30 June 2024 includes \$625 million in new commitments or equivalent value, prioritising value over volume to reflect potential for improved pricing on new commitments.

New commitments of \$259.8 million were made in period ending 31 December 2023 with approximately 38% higher pricing compared to FY23, based on the NPV of loss-adjusted probability-weighted investment cashflows per dollar of new commitments for the total portfolio.

This accounts for 42% of the full year commitment goal and compares to an average 47% of commitment target reached as at 31 December over the last three years. On an equivalent value basis, due to improved pricing, this accounts for 58% of the full year value generation goal.

An additional 29 exclusive term sheets have been agreed, representing approximately \$182 million in investment opportunities, which if converted into funded investments is a further 29% of our commitment target for the year ending 30 June 2024.

Portfolio review²

In December 2023, in conjunction with the development of probabilistic models for the transition to fair value, we undertook a thorough review of methodology and key assumptions underpinning quantum and duration estimates for all investments. This also allowed us to review the historic possible completion period (PCP) and estimated portfolio value (EPV) slippage by benchmarking the probabilistic model assumptions against the EPV and PCP.

Although neither method is necessarily more accurate on a case-by-case basis given the inherent uncertainties of litigation, we have revised EPV and PCP estimates for the portfolio. Completions are inherently uncertain and beyond our control, and investments may still complete as per prior EPV and PCP estimates.

While the revisions led to a combination of positive and negative EPV adjustments, the overall impact was a reduction in EPV of \$1.3 billion at 31 December 2023 compared to 30 September 2023.

The EPV (including conditionally funded and investment committee (IC) approved investments) at 31 December 2023 is \$27.6 billion, down 10% compared to 30 September 2023. Excluding the secondary market disposal, EPV was 8% lower compared to 30 September 2023.

⁴ Represents non-IFRS information. Here Fund 5 is presented at 100% for consistency of presentation across OBL's Funds.

Directors' Report (continued)

Review and results of operations (continued)

In line with the indicated changed disclosures on EPV, included in our 2Q24 Investment Portfolio Report dated 25 January 2023, we no longer report EPV with PCP for specific financial years.

This is replaced by an EPV of \$5.1 billion which is assessed to possibly complete in the 12 months following the end of the quarter. This 12-month rolling EPV is based on investments which are subject to various stages of (anticipated) settlement discussions or for which an award or a judgment is expected. All or only part of these may actually complete during the 12 month period. This approach better reflects the timing risk associated with investment completions, which are determined by the courts as well as the litigation and resolution approach of claimants and defendants, neither of which we control or can accurately predict. This also aligns with our legal finance peers, none of whom provide such information in their disclosures.

At 31 December 2023, there were 314 investments (30 June 2023: 301) in the Group's total portfolio, including 29 conditionally funded and IC approved investments.

Secondary market

The Group continues to utilise secondary market sales as a risk management strategy to reduce duration and completion risks, while enhancing liquidity and internal rates of return. In December 2023, we completed the sale of a 25% interest in a portfolio of 15 intellectual property (IP) investments (**Investments**) in Fund 4 for initial cash proceeds of US\$21.5 million, representing a multiple on invested capital (**MOIC**) of 2.0x of the apportioned aggregated deployments to date. The purchaser will receive a preferred return on its deployments alongside OBL, beyond which OBL retains further profit rights on the 25% interest.

Upon completion of the sale, each of the investments were treated as partial completions in our fund and performance reporting, the Fund 4 IP portfolio was deconsolidated and resulted in a net gain before non-controlling interests (**NCI**) of approximately US\$51.0 million EBITDA (after NCI of approximately US\$4.6 million EBITDA) before management and performance fees. The EPV relating to the 75% retained interest of the Investments is reflected in the Fund 4 EPV profile. The residual interest in the Investments is recognised as "Litigation Investments - investment in associates" within the Group Consolidated Financial Statements.

Fund capital raising

The US\$485 million first close of the Fund 4 and Fund 5 series II capital raising (**Series II**) completed in December 2023 on improved cost coverage terms. The continued and additional investment by existing investors together with OBL's co-funding provides a strong base to market the remaining US\$515 million capacity of Series II.

Series II has been structured to improve the cost coverage by OBL as manager through the inclusion of transaction fees payable on investments. Transaction fees, comparable to facility fees in traditional lending, are targeted to average around 2.5% to 3.0% of investment commitments and will typically be payable to OBL in the first years of an investment's life cycle. The transaction fees represent a significant improvement on the fee terms of the first series, in line with our stated objective to increase cost coverage contribution from future funds.

⁵ Represents non-IFRS information. Here Fund 5 is presented at 100% for consistency of presentation across OBL's Funds.

⁶ Further information on terms, including definitions of key concepts, used in the table above is detailed at the end of the Directors' Report and available in our Glossary at <https://omnibridgetway.com/investors/omni-bridgeway-glossary> and Notes at <https://omnibridgetway.com/investors/notes-to-quarterly-reports> and should be read in conjunction with this report.

⁷ The IP portfolio in Fund 4 was deconsolidated on 8 December 2023 following the sale of a 25% interest in these investments. The EPV relating to the 75% retained interest of the IP portfolio is included. The residual interest of the IP portfolio in Fund 4 is recognised as an investment in associate in the Group Consolidated Financial Statements.

⁸ Including investments transferred from the warehouse and investments currently anticipated being transferred.

Directors' Report (continued)

Review and results of operations (continued)

In September 2023, the first €135 million tranche of debt was raised for our €300 million Fund 8, focused on global enforcement investments. Capital loss in Fund 8 is insured pursuant to a principal protection insurance indemnity of an initial amount of €135 million. The insurance policy has an option to extend the indemnity to €270 million, which provides for a second series or an upsize of series one. Omni Bridgeway has committed an initial €15 million standby equity and can increase to €30 million when the insurance uplift option is exercised. The Fund 8 insurance premium and establishment costs, previously paid by OBL on behalf of the fund were received as a \$10.3 million cash reimbursement to OBL during the period ending 31 December 2023.

Board and management

On 26 October 2023, Raymond van Hulst was appointed Managing Director and Chief Executive Officer (CEO) of the Group following the retirement of Andrew Saker, after more than eight years in the role.

Mr van Hulst, former Executive Director and Co-Chief Investment Officer of EMEA, previously held a wide range of senior roles in the Company having been a key member of the legacy Omni Bridgeway team for over 20 years, and brings a breadth of experience in legal firms. Since the merger of IMF Bentham and Omni Bridgeway Holding B.V in 2019, Mr van Hulst has focused on the globalisation of the enforcement investment strategy and integration of the businesses. His experience provides business continuity and a smooth transition.

Notes to the Directors' Report

Further information

Certain terms used throughout the Directors' Report including, but not limited to, investment income, fee revenue, estimated portfolio value (**EPV**), commitments and fair value (**FV**) are presented as non-IFRS information.

Commitments, EPV and FV include conditional and Investment Committee approved investments. The investments of Funds 2&3, Fund 4, Fund 6 and Fund 8 are consolidated within the Group Consolidated Financial Statements, along with the interest of the respective external Fund investors if applicable.

Fund 1 was deconsolidated on 31 May 2023. The associated EPV, effective from that date, is excluded from this document.

The Fund 4 IP portfolio was deconsolidated on 8 December 2023 following the sale of a 25% interest in these investments. The EPV relating to the 75% retained interest is proportionally reflected in the Fund 4 EPV profile.

Fund 1 and Fund 5 are not consolidated within the Group Consolidated Financial Statements; the residual interest in Fund 1 and in the Fund 4 IP portfolio is recognised as an investment in associate, whereas Fund 5 is brought in at the Group's attributable 20% share of income, assets, and liabilities.

Throughout the Directors' Report, Fund 5 is presented at 100% values (except where otherwise stated) for consistency of presentation across OBL's funds.

Where investments are co-funded with an entity which is not affiliated with Omni Bridgeway, the co-funded proportion of the applicable investment is excluded from the Directors' Report (except where otherwise stated).

Further information on the terms, including definitions of key concepts, is available in our Glossary at <https://omnibridgeway.com/investors/omni-bridgeway-glossary> and Notes at <https://omnibridgeway.com/investors/notes-to-quarterly-reports> and should be read in conjunction with this report.

The Group's Fund structures include:

Pty Ltd, Omni Bridgeway (Fund 5) S2 LP as well as parallel joint investor, Omni Bridgeway (Fund 5) GPA Pty Ltd. This Fund invests in litigation investments outside the United States. Only the parallel joint investor is consolidated within the Group and included in the segment note.
- **Fund 6** – Is an investment structure focused in Europe, Middle East and Africa that was acquired in a business combination on 8 November 2019 and includes the entity responsible for providing the management of Fund 7. It was established to invest in litigation, arbitration and enforcement proceedings, and for the work-out and monetisation of claims. Revenue is derived from enforcement and recovery services and other income is derived from litigation investments. OBL retains control and ownership of Fund 6 via its equity interests. Legal ownership of the litigation investments are spread across the entire OBE Group. Fund 6 is consolidated into the Group.
- **Fund 8** – is an investment structure focused on global enforcement investments and comprises Omni Bridgeway (Fund 8) Guernsey Investments Limited; Omni Bridgeway (Fund 8) Delaware SPV LLC; Omni Bridgeway (Fund 8) Guernsey SPV Limited; Omni Bridgeway (Fund 8) Delaware SPV LLC - Series 1; Omni Bridgeway (Fund 8) Delaware SPV LLC - Series 2; Omni Bridgeway (Fund 8) Delaware SPV LLC - Series 3. Fund 8 is consolidated into the Group.

For Funds 2 & 3, the non-controlling interest is comprised of equity interests which carry an entitlement to receive a capped priority return on drawn capital and a further preferred return on committed but undrawn capital. OBL retains control and ownership of the Funds via its equity interests. Upon satisfaction of the non-controlling interests' priority returns, OBL is entitled to a manager return. After satisfaction of the priority return and the manager returns, the residual net cash flows are to be distributed 80% to OBL and 20% to non-controlling interests. The Funds have an infinite life and all distributions are discretionary.

For Fund 4 the non-controlling interest is comprised of an equity interest which, together with OBL's interest, carries an entitlement to receive return of capital plus a hurdle return on invested capital; and a pro-rata share of any residual after OBL's periodic management fee and transactional based performance fee. OBL retains control and ownership of the Funds via its equity interest. The Fund has an infinite life and all distributions are discretionary.

Notes to the Interim Financial Report

for the half year ended 31 December 2023 (continued)

Note 1: Segment Information (continued)

For Fund 5, there is no non-controlling interest as only OBL's 100% owned investment vehicle is consolidated. OBL's owned vehicle represents 20% of the total Fund 5 structure from which OBL is entitled to periodic management fees and transactional based performance fees.

For Fund 6, the non-controlling interest is comprised of an equity interest which, together with OBL's interest, carries a case by case entitlement to receive return of capital plus a return on invested capital after OBL's transactional based performance fee. OBL retains control and ownership of the Funds via its equity interest. The Fund has an infinite life and all distributions are discretionary during the investment period.

For Fund 8, there is no non-controlling interests as the fund is structured as an insured, leveraged special purpose vehicle (SPV). The capital for the fund is sourced from limited recourse debt.

Inter-segment revenue comprises interest revenue on intercompany loans and advisory fees.

Intercompany interest revenue is recognised in accordance with AASB 9 using the effective interest rate method.

Adjustments and eliminations relate to certain finance and overheads costs that are not allocated to individual segments as the underlying expenses are incurred within wholly owned operations. These costs are capitalised into litigation funding contracts on consolidation of the Group. The associated tax effect accounting for these items is also managed on a Group basis and not allocated to the individual segments.

Inter-segment revenues and expenses are eliminated on consolidation and reflected in the "adjustments and eliminations" column.

Adjustments made in the balance sheet include adjustments to non-current assets to eliminate intercompany loans and investments in subsidiaries on consolidation.

Unrecognised temporary differences and tax losses

At 31 December 2023, the Group had \$2.1 million (30 June 2023: \$2.5 million) of unrecognised deferred tax assets relating to temporary differences and tax losses in its Canadian subsidiaries.

Deferred tax assets relating to Australian operations

The deferred tax assets balance includes \$41.9 million (30 June 2023: \$34.3 million) of assets relating to carried forward tax losses of Omni Bridgeway Limited (OBL) tax consolidated group as at 31 December 2023.

It is probable that the OBL tax group will earn sufficient taxable income to utilise the losses as the Australian business has significant investments on balance sheet and through Fund 5 participation, which have a combined EPV of \$10 billion. In addition, OBL is expected to receive distributions from Funds 2&3 and intra group income from the wider group.

Deferred tax assets relating to USA operations

The deferred tax assets balance includes \$20.4 million (30 June 2023: \$24.7 million) of assets relating to carried forward tax losses of Omni Bridgeway Holdings (USA) Inc. Under existing tax regulations, the losses incurred prior to financial year ended 30 June 2019 can be carried forward for 20 years and losses incurred thereafter can be carried forward indefinitely.

The US business had a history of incurring tax losses before the year ended 31 December 2023. The losses have arisen primarily from the implementation of the expansion of the administrative base in the United States to support strategic growth initiatives that are, according to plan, yet to realise their full value. Omni has considered the utilisation of these tax losses within the expanded US business and has determined that, based on approved budgets and existing case matters, it is probable that the US tax group will earn sufficient taxable income to utilise the losses. Further, in assessing the utilisation of the tax losses, Omni considers there to be convincing other evidence to support the recoverability of these tax losses including:

- (i) The US business has continued to be in an expansion and infrastructure growth phase. Additional costs have been incurred in the business related to the expansion of activity and changes in operations to a Fund management structure. Investments in people, systems and infrastructure have been made ahead of the expected investment activity of the Funds. Fund 4 started in 2019 for an approved portfolio of commitments up to US\$500 million (of which the US business has a 20% interest) is currently in its investment commitment activity phase. With an average investment life of circa 3 years, a significant portion of the expected income is in the future. This income generation will be by way of both investment returns and fee revenues.
- (ii) The US business has raised substantial external capital over the past five years via its Fund structures. Fund 4 investors committed US\$500 million (80% external commitments). The external capital raised is the foundation of the investing activity that enables the US business to grow and generate returns to realise future taxable income. Fund 4 series II has recently launched and has raised A\$485 million from existing investors to date.
- (iii) US business committed a record level of commitments of A\$234 million last year. The commitment group supports the increased business activity, growth phase, profit generation and recovery of deferred tax assets in the future,
- (iv) There are 54 US investments as at 31 December 2023. It has been determined that the income generated by these investments, when realised, will exceed the tax losses within the US business.

Omni Bridgeway (Fund 2) Pty Limited and Omni Bridgeway (Fund 3) Pty Limited carried combined total deferred tax assets balances of \$0.2 million as at 31 December 2023 (30 June 2023: \$0.1 million), the deferred tax assets balances were predominantly related to the loss of Asian and Europe, Middle East & Africa investments during this reporting period. The Funds are 100% committed with litigation investment that are expected to generate significant taxable income in their respective tax jurisdictions in the future.

Weighted average number of ordinary shares	279,826,823	271,493,088

Variable deferred consideration is payable by the issue of fully paid ordinary shares in OBL. Please refer to Note 13 and Note 19 for details.

These shares have not been included for tranches of Variable Deferred Consideration where the performance milestones have not been met. In addition to this, the inclusion of any of these shares would be considered anti-dilutive.

During the period to 31 December 2023, the performance milestones for Tranche 4 of the Variable Deferred Consideration have been met. The shares relating to this are only included in dilutive loss per ordinary share where the performance milestones have been met and they do not have an anti-dilutive effect. As at 31 December 2023, there were 7,755,446 variable deferred consideration shares calculated as meeting the performance criteria for inclusion in diluted loss per share, however these were not included due to their anti-dilutive effect.

The weighted average number of ordinary shares outstanding includes performance rights granted under the Long Term Incentive Plan only where the performance hurdles are met as at period end and they do not have an anti-dilutive effect. As at 31 December 2023, there were no performance rights calculated meeting the performance criteria for inclusion in diluted loss per share.

There have been no transactions involving ordinary shares or potential ordinary shares that would significantly change the number of ordinary shares outstanding between the reporting date and the date of completion of these financial statements.

Note 8: Dividends paid and proposed by Omni Bridgeway Limited (the Parent)

Cash dividends on ordinary shares declared and paid

There were no dividends declared or paid for the period ended 31 December 2023 to the equity holders of the parent.

The Company considers all its capital management options in light the cash position and performance of the Group at the time as well as the likely demand for cash over the ensuing 12-month period. In determining the appropriate mechanism to deliver returns to shareholders, the board will consider both semi-annual dividends and share buy-backs. Relevant considerations include the source and nature of income and the prevailing share price relative to the intrinsic value and the franking credit balance.

The Company has a dividend reinvestment plan (DRP) that shareholders may elect to participate in. On appropriate occasions, the Company may arrange DRP underwriting to reduce the impact a particular dividend might otherwise have on the Group's cash resources.

Note 11: Litigation investments - intangible assets

(a) Reconciliation of carrying amounts

The carrying value of litigation investments - intangible assets can be summarised as follows:

	Consolidated	
	31-Dec-23	30-Jun-23
	\$'000	\$'000
External funding costs	291,995	337,167
Capitalised overheads	58,187	49,143
Gross carrying amount at cost	350,182	386,310
Accumulated impairment	(45,028)	(16,225)
Net carrying amount	305,154	370,085

Included in the closing balance is \$17.7 million (30 June 2023: \$18.1 million) of purchase price adjustments that originally arose from business combination.

(b) Impairment testing of litigation investments - intangible assets

Except for specific litigation investments – intangible assets that are subject to an unfavourable judgement or award, the recoverable amount of each of the litigation investments – intangible assets is determined based on a value in use calculation using cash flow projections based on financial budgets approved by management for the expected length of each investment.

The following describes each key assumption on which management has based its cash flow projections when determining the value in use of litigation investments - intangible assets:

- The estimated cost to complete is budgeted based on estimates provided by the external legal advisors handling the litigation.
- The value to the Group, once completed, is estimated based on the successful conclusion and the resulting expected settlement or judgment amount of the litigation and the fees due to the Group under the litigation funding contract.
- The discount rate of 12% applied to the cash flow projections is based on the Group's weighted average cost of capital and other factors relevant to the particular investment including country risk.

At 31 December 2023, the balance of provisions for impairment was \$45.0 million (30 June 2023: \$16.2 million). The \$28.8 million net movement in the period reflects:

- \$31.9 million of new impairments in relation to 19 investments;
- the net impact of investment and the asset derecognised; and
- foreign exchange variances.

For new or increased impairments, during the impairment review, management have determined that either a successful outcome for the investment was no longer likely to occur or that the likely outcome would not recover the current carrying value of the investment. The discount rate used in the impairment indicator assessment of these assets was 12%. After taking into account the impairment indicators, at 31 December 2023, the 19 investments have a combined carrying value of \$13.8 million. This amount reflects the net recoverable amount expected to be received from the investments.

D. WORKING CAPITAL, OTHER ASSETS AND OTHER LIABILITIES

Note 17: Trade and other receivables

Receivables are recognised initially at the present value of owed amount and subsequently remeasured at amortised cost using the effective interest rate method, less an allowance for any uncollectible amounts.

Receivables due from the completion of litigation investments are recognised upon various stages of completion of the underlying litigation in conjunction with the income recognition criteria of each investment. Collectability is reviewed on an ongoing basis and at each reporting period.

The Group recognises an allowance for expected credit losses (ECLs) for all receivables based on the difference between the contractual cash flows due and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

Other receivables comprise interest receivable upon the maturity of the Group's short-term deposits (between 30 and 90 days), receivables from co-funders of litigation contracts in progress, short term loans and deposits receivable.

Fair value and credit risk

Due to the nature of these receivables, the carrying value of the current and non-current receivables approximates fair value. The maximum exposure to credit risk associated with receivables is the carrying value of receivables.

The make good provision relates to amounts recognised for make good requirements on leases of office space.

Note 21: Commitments and contingencies

Certain litigation funding agreements entered into by a Group entity contain an undertaking to pay any adverse costs awarded should the funded party's litigation be unsuccessful. Adverse costs is the name given to the legal costs of the successful party in applicable "cost shifting" jurisdictions, which generally excludes the United States of America. Based on past experience, an award for adverse costs to a defendant will approximate 40% to 80% (depending on the jurisdiction) of the amount paid by the claimant to pursue the litigation. In cases with multiple defendants, this range can be exceeded.

The Group assesses all of its investments for the probability of having to disburse adverse costs and, when deemed necessary, records the amount expected to pay out as a provision.

Certain Group entities mitigate the risk of paying adverse costs through after the event insurance ("ATE"). In addition, "top-up" ATE insurance may be obtained for single investments to reduce adverse cost concentration risk, and to provide for additional cover.

When the Group records a provision for adverse costs that is subject to ATE insurance, an insurance receivable is correspondingly recorded for the estimate of the coverage. The provisions and insurance receivable recorded are subject to estimates that take into account the portfolio effects, and in respect of the latter, the self-insured excess and the policy indemnity amount.

At 31 December 2023, the adverse cost exposure is \$27.3 million (with Fund 5 at 20%) (refer to Note 20). Of this provision \$8.3 million is expected to be recovered from insurance or a co-funding agreement.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the directors for the financial report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its financial performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

It includes the amount to the funded client and to the Group.
